

A detailed technical drawing of a heavy ion accelerator component, showing various mechanical parts, bolts, and a central cylindrical structure. The drawing is rendered in a light blue and green color scheme with fine lines and shading.

INTERNATIONAL WORKSHOP ON ACCELERATION AND APPLICATIONS OF HEAVY IONS

**27 February - 12 March 2011
Heavy Ion Laboratory, Warszawa, Poland**

- Hands-on training in an accelerator facility**
- Lectures on modern nuclear physics techniques**
- Work in an international group of students**

Application deadline: 10 February 2011

**International Workshop on Acceleration and Applications of Heavy Ions
is supported by the ERASMUS LLP Programme**

**Organisers: University of Warsaw, Poland; University of Sofia, Bulgaria;
University of Huelva, Spain**
