

Recommendation
of the Warsaw Heavy Ion Laboratory Program Advisory Committee
for proposals presented during the HIL PAC meeting on June 6th, 2016.

Proposal	Spokesperson	Title	Shifts	
			requested	recommended
HIL057	Z. Szefliński, J. Czub	Survival of CHO-K1 cells after double-ions irradiation	30	30
HIL058	J. Jastrzębski	Internal α particle beam for the production of the medical isotopes	4 weeks	3 weeks
HIL059	J. Perkowski	Study of K-isomer in ^{186}Hg	36	36
HIL060	M. Matejska-Minda K. Hadyńska-Klęk	Coulomb excitation of ^{45}Sc	36	36
HIL061	A. Tucholski, C. Petrache	Study of low lying states of ^{136}Nd	40	40
HIL062	M. Pietrzak, A. Bancer, S. Pszona	Particle track structure for carbon ions	30	30

On behalf of the HIL PAC
Zenon Janas
